9 Mountain Bike Itineraries

This itinerary follows the traces of the former railway line that, from 1884 till 1939, ran-between Menaggio and Porlezza connecting Lake Como with Lake Lugano. The route, mainly paved, runs through the Val Menaggio and touches the Lago di Piano Nature Reserve.

- Itinerary:** Menaggio - Porlezza
- Length:** 13,5 km (one way)
- Starting point:** Menaggio 200 m
- Maximum altitude:** Cardano 377 m
- Total ascent:** 299 m
- Technical difficulty:** ●○○○○○
- Physical commitment:** ●●○○○○

Route: From the **ferry dock** of Menaggio, cross **Via IV Novembre** and go up to the **Youth Hostel**. From here continue straight on and, after 500 m at the bend, turn right and ascend the steep road that leads along the side of Monte Crocetta. Continue along **Via Privata Eili Castelli** which ends onto the main **State road 340** which connects Menaggio with Lugano. Follow it to the left, uphill, for just 50m and at the next bend pick up the cycle/footpath. The track enters the valley and passes a 90 m long tunnel. It leads onto the **SP road of Grandola ed Uniti**. Turn right and then immediately left in via Roma (beware of local traffic). After approx. 300 m turn left into Via Gonte. Once at the village **Gonte**, turn left into **Via Cascinello Rosso** that finishes after another 400 m on the state road 340. Cross it and follow the signs for **Bene Lario / Grona** and after 200 m pick up the cycle footpath on the right. Near the village of Grona the track is interrupted. Continue to the right along **Via Cascine**. At the intersection, pick up the cycle track again straight ahead (sign for Lago di Piano). You enter the **Nature Reserve Lago di Piano**. You pass behind the campsite Ranocchio and just past its entrance you skirt the lake Piano. Soon you reach the visitor centre La Casa della Riserva with an information office and a small eco-museum (for information tel. 0344 74961). On the left you notice the hillock called Brione with the **Castel S. Pietro** at its top. Cross the bridge over the river Cuccio. Follow the course of the river until you reach the **main road SP14**. Continue to the right for 100 m and then cross the main road and turn into Via Prati that leads to the residential complex called "Porto Letizia." On the left side of the main building take the path that skirts Lake Lugano. Follow it to the centre of Porlezza. **Back the same way.**

Note: *The rail way line between Menaggio and Porlezza was opened in 1884 in order to attract more tourists from northern Europe to the area. Arriving by train to Lugano the tourists were then transported by steam boat to Porlezza from where the train brought them to Menaggio. After the first World War it became a simple working class transit system that lasted till 1939. After the Second World War the train line was abandoned.*

The village retains the semi-circular layout of the old defensive walls. Not to be missed is the S. Martino church with beautiful frescos in the vault painted in 1697 by Paolo Pagani, born at Castello. In his old mansion a museum has been created with a collection of works of local artists between the XIV and XIX century. (info. tel. 0344 62427). From here ascend the track to a small chapel, then descend to **Maggione**, a hamlet of Carlarzo. Follow **via Antonio** to return to **Carlarzo**.

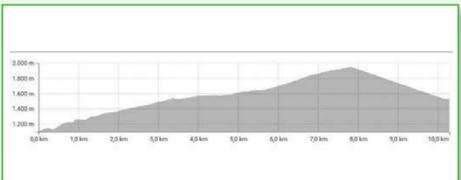

Approach by car: from Menaggio follow the main road 340 in the direction of Lugano as far as Porlezza. At the traffic light turn right in the direction of Val Rezzo. When you reach the town Corrido 451 m, at the crossing, go straight on in the direction of Val Rezzo. You follow the narrow road to the village Buggiolo 1044 m where, at the beginning of the village, you turn right in the direction of Cavargna / passo della Cava. Dasio leave the road and, on the left, enter the track (trail sign for rifugio Garzirola) that climbs up the ridge (the first 800 m you have to deal with a steep ascent) that separates Val Rezzo from Val Cavargna. After 1,5 km you reach a small chapel called **"Madonna del Cepp"** from where you can enjoy a beautiful view of the Val Rezzo (fountain - picnic area). Continue along the track that here follows a short section of the 4 Valley Trail. After 500 m at the fork go straight on.

Follow the grassy ridge back to the church of San Lucio. Return to Buggiolo the same way you came.

Notes: *The fifteenth-century oratory of San Lucio has always been a cultural reference point for the people of both sides of the pass. Inside there are paintings ranging from the fifteenth to the seventeenth century and a wooden statue of the fifteenth century depicting the saint, patron of herdsmen and cheesemakers. The nearby San Lucio shelter was a former Guardia di Finanza barracks in operation since 1903; the military guarded the border, barred by a long metal fence called ramina, to identify any smuggling actions. This activity consisted in smuggling the border with various goods, in order to avoid customs duties. In the Val Cavargna area, both for its geographical position and for the fact that in the past the villagers led a hard life of deprivation, smuggling was the protagonist of the local reality. The detachment of San Lucio was suppressed in the 60s, the barracks, abandoned, went into degradation, but in 1999 work began to be used as a shelter.*

Abbondio** continue along **via Regina Margherita**. At the end of the town, at a fork, keep to the right (left the road leads up to Pezzo). You arrive at the harbour of Pianello del Lario where you take the cycle-footpath (**passeggiata Breva e Tivan**) to the right. Pay attention to the pedestrians. You reach **San Vito** in the township of Cremia. Ascend to the state road past the small church of S. Vito and follow it for 800 m in order to **enter via Statale Vecchia**, on the left of the tunnel (attention crossing the road) that takes you back to Rezzonico. From here back the same way you came.
